EXPERIMENT 1 : Create a Kanban Board to Visualize the Tasks.

Create Columns for To Do, In-Progress and Done.

Add Atleast 5 Sample Tasks

Move the Tasks across the Columns to Simulate the Workflow.

1. Aim

To create a Kanban board in Jira with three columns — To Do, In-Progress, and Done — and add at least five sample tasks to visualize and manage the workflow.

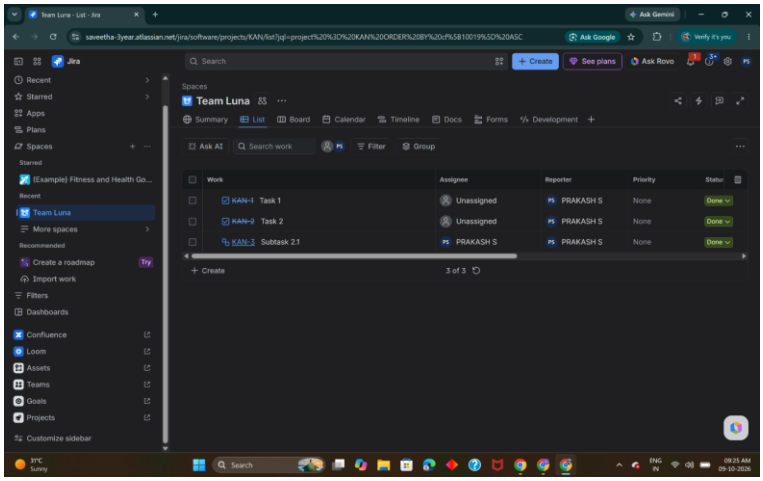

2. Software Used

- Software: Jira (Atlassian Jira)
- Purpose: Task management and workflow visualization.

3. Procedure

1. Open Jira and create a new project using the Kanban template.
2. Create three columns: To Do, In-Progress, and Done.
3. Add at least five sample tasks to the board.
4. Place the tasks in the appropriate columns based on their status.
5. Move tasks between columns to simulate the workflow from beginning to completion.

4. Output

Result: the result have been verified in jera software
